The background of the cover is a scenic photograph. In the foreground, there are branches with vibrant red and orange autumn leaves. Behind them, a modern building with a grid of windows is visible. In the distance, a wide river flows, with a suspension bridge and several tall industrial smokestacks on the far bank under a clear sky.

**The Pocket Guide
To Residence
2013-2014**

Welcome to Residence

Welcome to residence at Mount Saint Vincent University! Living in residence will add a whole new dimension to your university years. Apart from the convenience of living close to all campus resources (e.g., computer labs, language labs, science labs, library, and gym), you also have the opportunity to become more involved in campus life; investigate the possibilities, take advantage of residence leadership opportunities and make the most of your university experience!

We have put together some information we think will be helpful to you as you move into residence. The following guidelines are for everyone to follow. If there are some areas you feel are not clearly explained or any rules that seem ambiguous to you, feel free to ask your Don or RA for clarification. The RAs and Dons are here to help you and make your year the best it can be. They will help you with anything you need!

Guaranteed, you will leave residence a different person with new friends (some of whom will be your friends for a lifetime!). You will also realize that you have the ability to do more and handle more situations than you ever thought possible.
